

KV range of wet & dry electric dust collectors

Trelawny TVS™ (tool & vacuum system) enables the collection of hazardous & nuisance dust from the source of surface preparation equipment and hand tools to provide a safe and clean working environment.

A robust and powerful range of vacuums are available in wet or dry versions to tackle the toughest of jobs in the harshest of environments, such as dry dust & debris collection or recovery of non-flammable liquids.

FEATURES

- Double filtration system
- Twin 1000 watt motors
- TV & radio suppressed
- Floor tool kit for general cleaning work
- Thermal cut out switch to protect motors
- Disposable paper filter or re-usable cloth bag
- Optional HEPA filter available – for collection of hazardous dust

STANDARD EQUIPMENT

Dry models complete with:

- 38mm tool kit with dusting brush
(*Part No. 303.1085/AS*)
- Standard antistatic cloth filter
- 10 x K6 paper filter

Wet & dry models complete with:

- Antistatic 38mm tool kit with dust brush & wet floor tool
- Float assembly (*Part No. 303.1055*)
- Standard antistatic cloth filter
- 10 x K6 paper filter

ACCESSORIES

Accessories	Part Number	Description
	303.1060	HEPA* filter (optional)
	303.1025/AS	14" antistatic standard filter assembly (for dry use with paper filter or paper bag)
	303.1035	14" permaflow filter (optional – secondary filtration)
	303.1055	14" float assembly – wet use
	303.1075/AS	38mm x 3 metre antistatic hose
	303.1085/AS	38mm antistatic dry tool kit
	303.1095/AS	38mm antistatic wet tool kit
	303.1100	38mm multi purpose tool with brushes
	303.1105/AS	38mm x 125mm dusting brush
	303.1110	38mm stainless steel double taper tube for joining hoses
	303.1005	K4 disposable bags – pack of 10 – for disposing of sealed waste such as hazardous dust
	303.1030	K6 paper filter – pack of 10 – for dry use applications

* HEPA: High Efficiency Particulate Air – filter for collection of hazardous dust

TECHNICAL DATA

Part Number	Model	Recovery Capacity (litres)	Voltage	Rating (amp)	Maximum vacuum (mm H ₂ O)	Output flow (litres/seconds)	Dimensions (cms)	Weight (kgs)
303.11KV30/2D	KV30 110V twin motor dry	30	110 V	16	2.500mm/ water gauge	82.0	71x44x44	16
303.11KV30/2WD	KV30 110V twin motor wet & dry	30	110 V	16	2.500mm/ water gauge	82.0	71x44x44	16
303.22KV30/2D	KV30 230V twin motor dry	30	230 V	13	2.500mm/ water gauge	82.0	71x44x44	16
303.22KV30/2WD	KV30 230V twin motor wet & dry	30	230 V	13	2.500mm/ water gauge	82.0	71x44x44	16
